

ABOUT CORNERSTONE ECONOMICS

“Our mission is to put our firm available to support and tackle social problems, improve communities, solve business and economic challenges with the aim to establish sound principles, maximize social impact, optimize financial value, inspire innovation and ultimately build stronger and sustainable organizations and communities.”

**NOT JUST A
COMPANY - A CAUSE**

OUR SERVICES:

Consultancy for Non-profits

We focus on serving non-profit organizations with reduced consultancy fee, making professional skills and knowledge available to our community.

Business strategy & planning

A business plan is an essential roadmap for business success. We provide assistance in setting up and writing of your business plan for your specific purpose, whether it's intended for lenders, investors, shareholders, permit requests or a living document for your own company. Next to business planning, feasibility studies and business strategy formulation is also part of our solutions.

Market research

We offer market research on products, markets, companies, industries (trends), competition, customers or target market and countries with the aim to contribute to business growth and social change.

Financial Education

We offer training and educational programs to help broaden the knowledge of individuals and your employees. We offer customized training plans in subjects such as; entrepreneurship, finance, research and management
